The Lantern of Kindness

A short original sample story
Nora found a lantern beside the garden gate.
Its glass was dusty, but a tiny warm light still glowed inside.

She carried it to the old gardener, who had been searching
for it all morning. He smiled and thanked her for returning it.

That evening, the gardener lit the lantern and placed it by
the gate. Its gentle light helped every neighbor find the path.

Nora learned that a small act of kindness can brighten
the way for many people.
